# 01 **A PREMIUM APPAREL PROFIT**

The NextGen T-Shirt Machine prints custom, full-colour shirts on demand — a high-ticket impulse buy customers love to design and watch made on the spot. **About A\$45 per sale, ~60% gross margin.** A small footprint, big customer moment, made for Australian foot traffic.

DESIGN TO FINISHED SHIRT

## **HIGHER TICKET THAN ACCESSORIES**

Custom-printed shirts command A\$35–A\$60 retail — a materially bigger sale than phone accessories or vending classics, with the same self-serve experience.

## **SIMPLE, SCALABLE BUSINESS**

One operator can run a fleet from the owner portal. Add machines in new venues without adding staff.

## **PERFECT AUSTRALIAN VENUES**

Shopping centres, airports, universities, gyms, hotels, music & sporting events, tourist precincts — anywhere with steady foot traffic.

Illustrative projections. Actual results depend on placement, footfall, operating hours and marketing. Full modelling provided in the Owner Pack. All figures in Australian dollars.

## 02 **HOW IT WORKS**

Self-serve from "Touch to Start" to "Pick Up Your T-Shirt". No app, no account, no waiting — a one-of-a-kind shirt in hand in minutes.

**1**

### **TOUCH TO START**

Pick a shirt style, colour and size.

**2**

### **DESIGN IT**

Upload a photo, add text or choose from artwork. Preview live on the shirt.

**3**

### **TAP TO PAY**

Contactless, chip, mobile wallets — PayWave standard.

**4**

### **WE PRINT**

Full-colour direct-to-garment printing, on the spot.

**5**

### **COLLECT & GO**

Finished one-of-one shirt drops to the "Pick up your T-shirt" hatch. Wear it out the door.

## **WHAT'S INCLUDED**

- ✓ **Turnkey machine** — hardware, software & payment terminal
- ✓ **DTG ink supply** — cyan, magenta, yellow, black, white base
- ✓ **Owner portal** — live revenue, stock levels, one-tap reorder
